REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: None of the prior art of record teaches or fairly suggests the foreign body retrieval apparatus of claim 1, 4, 10, 11, 12 or 14.

In the 3rd paragraph on page 11 of the Response received 03/03/2004, Applicant argued "Gaurderer et al. does not cure the deficiencies of Nakao et al." because "one of ordinary skill in the art would not look to the teachings of an esophageal coin remover to modify a stapler inserter." The Examiner agrees with this argument and hereby withdraws the rejection under 35 U.S.C. 103(a) in view of Nakao et al. and Gaurderer et al.

While U.S. 6,090,129 to Ouchi (cited in the Notice of References Cited mailed 01/30/2004) appears to teach an axially elongate member 32 having a foreign body capturing assembly 500 and an inner lumen, a substantially tubular member 31, and a sheath 1000 having an inner lumen; the inner lumen of the axially elongate member is *not* sized and shaped to receive a viewing apparatus while the foreign body capturing assembly is received thereby. The language of claims 1, 4, 10, 11, 12 and 14 requires the axially elongate member "have" a foreign body capturing assembly. It is the Examiner's view that having a foreign body capturing assembly while also having an inner lumen sized and shaped to receive a viewing apparatus is not possible with the device of Ouchi.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Application/Control Number: 10/075,031 Page 3

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael B. Priddy whose telephone number is (703) 308-8620. The examiner can normally be reached on Mon.-Fri. 8 a.m. - 5 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kevin Shaver can be reached on (703) 308-2582. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
